

Unit 2 Welcome to a Modern Port

Read & Listen

Exercise 1

Today a **major** port is a world of its own. Modern **port facilities** have to meet the **demands** of highly specialised transport systems by sea, land and air. And so within the **boundaries** of any large sea port we find an amazing **range** of services.

A modern port **maintains** shipping channels, harbour basins, and navigation **aids** as well as the port **infrastructure** such as wharves, quays, docks, storage areas and warehouses, **cranes** for cargo handling and **terminals** for cargoes and passengers. It provides pilots and pilot vessels, tugs for **towage** and **emergency response** vessels in cases of accidents at sea.

Exercise 2

Ship's Chandlers	procures e.g. food articles and other equipment needed by ships
Shipping Agent	represents ship owners in port, carries out services for ships
Stevedoring Company	provides personnel (and equipment) for loading and discharging
Ship Brokers	a company that buys and sells ships
Companies for Marine Equipment and Ship's Repair	provides equipment for repair and maintenance of ships
Shipping Company	a ship- owning company offering service for shipment of goods overseas

Exercise 3

dry bulk	loose cargo e.g. sand
a fertilizer	a natural or chemical substance used to make plants grow
grain	the small hard seeds of food plants such as wheat and rye
logistics	maintenance
coal	black substance dug from underground burnt as fuel
ore	rock or soil from which you can get metal
shipment	an amount of goods sent from one place to another
molasses	sweet thick dark liquid used in sweet dishes

petrol	fuel used in car engines Am. gasoline
liquid bulk	liquids
petroleum	a mineral oil from which paraffin, benzine etc. are obtained
sodium carbonate	Na ₂ CO ₃
general cargo	piece cargo

Exercise 4

1. Santander lies or is **<situated>** on the north coast of Spain.
2. It is a popular holiday **<resort>**.
3. Santander is an old port town; it was **<founded>** by the Romans.
4. In Santander water, road and railway transport meet; it is an important **<junction>**.
5. Traffic included or **<comprised>** five million tons of goods in 2003.
6. **<Liner>** traffic is when a ship goes on the same route back and forth between two ports.
7. Passenger ferries and cruise ships berth at a **<passenger terminal>**.
8. Traffic has become more lively; there has been an **<increase>** in traffic.
9. RORO is short for **<roll- on- roll- off/roll-on, roll-off>**.
10. When you put money into something and hope to make a profit we say you **<invest>**.
11. The sum put up is called an **<investment>**.
12. RORO traffic stands or **<accounts for>** for 65% of the general cargo traffic.
13. The Port authorities have had to set up or **<install>** specialized equipment for vehicle handling.

Reading Comprehension: Vessel types

Exercise 1

barrel	a round container often for oil, for example
bale	a large bundle of goods packed and fastened up
crate	a wooden box
grabber	a clutching device for handling cargo
pallet	a platform with or without sides on which you can load packages or crates
bucket	a pail
bag	something made of leather, paper, cloth or plastic for holding articles or goods
container	a metal box of standard size used for cargo
hopper	a funnel like a cone upside down through which

	grain passes into a truck or hold
bin	a box in which things (grain, scrap metal etc.) may be stored or put
carton	a box made of cardboard
conveyor	a belt or chain for moving large quantities of goods

Exercise 2

GENERAL CARGO

machinery parts
piece goods
timber
paper rolls
electronics

DRY BULK

sand
scrap metal
grain
ore
soya beans
fertilizers
coal
cereals
sodium carbonate

LIQUID BULK

oil
chemicals
petroleum
molasses
gas
