

MarEng Plus PROJECT AND LEARNING TOOL

The MarEng Plus Learning Tool is the result of the MarEng Plus project. The MarEng Plus team consists of a large partner group from 11 EU Member States. The partners' background in the maritime sector, their knowledge of the shipping industry and their experience of teaching maritime English have contributed to the success of the project.

This project has been funded with support from the European Commission. The content of this project does not necessarily reflect the position of the European Community or the National Agency, nor does it involve any responsibility on their part.

ACKNOWLEDGEMENTS

The MarEng Plus project group wants to express its appreciation to the following persons, companies and organisations for their generous support, which has greatly contributed to the successful realisation of different modules of the MarEng Plus Learning Tool:

MarEng and MarEng Plus/Elementary, Intermediate and Advanced Levels/The Marine Environment and Maritime Security

National Oceanic and Atmospheric Administration (NOAA) who gave permission to use some of the photographs from their website

Thanks to Antwerp Maritime Academy students Lieve Cobbaut and Joris Nijskens for their recording of the SMCP exercises in the intermediate level.

MarEng Plus/Elementary Level/Cargo Operations and The Weather

Barbara Katarzyńska would like to express special thanks to the following people:

Captain Adam Dobosz for providing photos of the twistlock and bridge fittings in the section dealing with lashing equipment in container terminals,

III engineer Jerzy Siewierski for the photo of not properly lashed containers,

Captain Hideki Hagiwara for the photos of a rolling container vessel,

Captain Mirosław Klarowski for the sketches and their descriptions of the ship movements due to the weather,

and the following students: Michał Kryszczak, Patryk Powaga, Aleksandra Peszkowska, Justyna Jędrzejewska and Monika Ligocka for the photos in the container and bulk terminals.

The weather maps were taken from a local newspaper “Dziennik Bałtycki” and from the Meteorological Institute in Gdynia.

MarEng Plus/Elementary Level/Liquid Cargo Operations and Severe Weather Conditions

Captain Tapani Pasanen, Harbour Master, PFSO, Port of Hamina Ltd, for letting us visit the oil terminal, allowing us to take some of the photographs used in this tool, and providing photographs of the oil terminal, M/T Tervi, an earthing cable, pipelines, a jetty, loading arms and hoses, valves, bolts and flanges, a drip tray, fire fighting equipment and M/S Timca

Captain Timo Alava, Training Manager, Kymenlaakso University of Applied Sciences, Seafaring and Logistics, for providing the drawing of M/T Scorpis and the mooring lines of a ship, photos of a cargo control room, pipelines on the deck of a tanker and the photo of taking the ullage

Risto Rajala, Harbour Manager, Neste Oil, Porvoo refinery/Port, for providing the photograph of a manifold

Terminal Manager Meri Arvilommi, Neste Oil, Hamina terminal, Oil Refining and Operational Management, for letting us visit the oil terminal, and allowing us to take the photographs of a pumping plant

Olli Ervaala, Manager of Department, and Mikko Koho, Senior lecturer, and their students at Kymenlaakso University of Applied Sciences for their kind help in testing the material

Also, thanks to Foreman in charge Juha Reila, Port of Hamina Ltd, for featuring in the photograph taken for illustration of Severe Weather Conditions module

MarEng Plus/Elementary Level/The Navigation Bridge

Excerpts from the IMO publication 'SOLAS, Consolidated Edition 2004' are reproduced with the permission of the International Maritime Organization (IMO) which holds the copyright.

Readers should be aware that IMO material is subject to revision and amendment from time to time, and that partial extracts may be misleading. IMO does not accept any responsibility for the material as reproduced: in case of doubt, the official IMO text will prevail.

Many thanks to Latvian Maritime Administration for their help and assistance in the preparation of the teaching material.

Grateful thanks to Assoc. professor G.Steinerts for reading the exercises and offering valuable advice.

Many thanks to E.Pavasars for contributing photos of the navigating bridge.
