

Maritime Security

Ship Security Assessment

Exercise 1

- 1) physical security;
- 2) structural integrity;
- 3) personnel protection systems;
- 4) procedural policies;
- 5) radio and telecommunication systems, including computer systems and networks; and
- 6) other areas that may, if damaged or used for illicit observation, pose a risk to persons, property, or operations on board the ship or within a port facility.

Exercise 2

- 1) knowledge
- 2) recognition
- 3) detection
- 4) characteristics
- 5) behavioural
- 6) circumvent
- 7) incident
- 8) structures
- 9) interface
- 10) contingency
- 11) preparedness
- 12) physical
- 13) telecommunications
- 14) engineering
- 15) operations

Exercise 3

- 1) the general layout of the ship;
- 2) the location of areas which should have restricted access, such as navigation bridge, machinery spaces of category A and other control stations etc.;
- 3) the location and function of each actual or potential access point to the ship;
- 4) changes in the tide which may have an impact on the vulnerability or security of the ship;
- 5) the cargo spaces and stowage arrangements;
- 6) the locations where the ship's stores and essential maintenance equipment is stored;
- 7) the locations where unaccompanied baggage is stored;
- 8) the emergency and stand-by equipment available to maintain essential services;
- 9) the number of ship's personnel, any existing security duties and any existing training requirement practices of the Company;

- 10) existing security and safety equipment for the protection of passengers and ship's personnel;
- 11) escape and evacuation routes and assembly stations which have to be maintained to ensure the orderly and safe emergency evacuation of the ship;
- 12) existing agreements with private security companies providing ship/ waterside security services;
- 13) existing security measures and procedures in effect, including inspection and, control procedures, identification systems, surveillance and monitoring equipment, personnel identification documents and communication, alarms, lighting, access control and other appropriate systems.

Exercise 4

- 1) access
- 2) decks
- 3) breach
- 4) legitimate
- 5) unauthorised
- 6) security
- 7) emergency
- 8) restricted
- 9) procedures
- 10) personnel
- 11) vendors
- 12) effectiveness
- 13) identification
- 14) communications
- 15) barriers
- 16) surveillance

Exercise 5

what is being carried by the ship, especially if it is flammable or toxic for example	the cargo, particularly dangerous goods or hazardous substances
the ship's crew	the ship's personnel
any equipment used by the crew to tell others where the ship is	the ship security communication equipment and systems, if any
the other people who have to come on board	passengers, visitors, vendors, repair technicians, port facility personnel, etc.
any equipment used by the crew to identify possible dangers	the ship's security surveillance equipment and systems, if any
the ability to navigate and to respond in an emergency	the capacity to maintain safe navigation and emergency response
the food & drink etc. carried on the ship	the ship's stores

Exercise 6

- 1) damage to, or destruction of, the ship or of a port facility, e.g. by explosive devices, arson, sabotage or vandalism;
- 2) hijacking or seizure of the ship or of persons on board;
- 3) tampering with cargo, essential ship equipment or systems or ship's stores;
- 4) unauthorized access or use, including presence of stowaways;
- 5) smuggling weapons or equipment, including weapons of mass destruction;
- 6) use of the ship to carry those intending to cause a security incident and/or their equipment;
- 7) use of the ship itself as a weapon or as a means to cause damage or destruction;
- 8) attacks from seaward whilst at berth or at anchor; and
- 9) attacks whilst at sea.

Exercise 7

- 1) vulnerabilities
- 2) safety
- 3) shipboard
- 4) assignments
- 5) watch-keeping
- 1) implications
- 2) fatigue
- 7) performance
- 8) deficiencies
- 9) equipment
