

IMO Model Course 3.17 Core Section 2, Part C: Intermediate level English for all functions and levels			
MarEng Chapter The	Knowledge, Understanding, Proficiency	Time (hours)	
Engine Room		CD	Self study - Practice
Part 1 A Marine Engineer Text	8.5.4 Communication skills; reading describes expected standards and behaviour of a Marine Engineer at sea	0,2	
		0,2	
Part 1 A Marine Engineer Exercise 1	Vocabulary; recognizes some names of basics machinery elements	0,1	0,2
		0,1	0,2
Part 1 A Marine Engineer Exercise 2	1.3.2 phonology: identifies the stressed syllable in words	0,1	0,2
	3.2.2 Vocabulary: uses compound nouns relating tp processes	0,2	0,2
		0,3	0,4
Part 1 The Engine Department Text	Communication skills: reading, describes duties and responsibilities of the engine department	0,2	
	6,2,3 Vocabulary; uses general marine engineering terms to identify and describe main components of marine power plant	0,1	
		0,3	

Part 1 The Engine Department Exercise 1	Grammar: use the correct statement word order	0,1	0,2
	Communication skills: reading, writing expressing responsibilities	0,1	0,2
		0,2	0,4
Part 1 The Engine Department Exercise 2	Communication skills: reading, listening	0,2	0,2
	Vocabulary: uses general words, defines words commonly used in engine room	0,3	0,3
		0,5	0,5
Part 1 The Engine Department Exercise 3	Grammar: uses Simple Past Tense and "used to"	0,1	
	9.5.2 Maritime Focus: describes qualities of leadership and personality types to work at sea	0,1	0,1
		0,2	0,1
Part 1 Watch - Keeping Text	11.4.1 Communication skills: reading describes watchkeeping principles and safety precautions to be observed during a watch	0,2	
	Maritime Focus: describes telling the time at sea	0,1	
		0,3	

Part 1 Watch - Keeping Exercise 1	Communication skills: reading, writing, listening writes numbers in words demonstrates the proper pronunciation of the numbers used for telling the time	0,1	0,1
		0,1	0,1
Part 1 Watch - Keeping Exercise 2	11.5.1 Maritime Focus; describes some routine equipment checks carried out during ER watch	0,1	0,1
	Phonology: stresses the proper pronunciation of gerund forms	0,1	
		0,2	0,1
Part 1 Internal combustion engines Text	6.4.3 Communication skills: reading explains the operating principle of a marine engine	0,2	0,1
		0,2	0,1
Part 1 Internal combustion engines Exercise 1	8.2.4 Vocabulary: identifies words that have similar meaning	0,1	0,1
	8.3.2 Phonology: identifies the weak vowel sounds in single words	0,1	0,1
		0,2	0,2
Part 1 Internal combustion engines Exercise 2	6.2.3 Vocabulary: uses general marine engineering terms to identify machinery components and operation	0,2	0,2
	3.3.1 Phonology: recognizes two-word stress tendencies	0,1	0,1
		0,3	0,3

Part 1 Four stroke cycle Text	6.1.2 Grammar: uses the passive voice in the present simple tense	0,1	0,1
	6.4.3 Communication skills: explains the operation principle of a 4-stroke c	0,2	
	5.2.1 Vocabulary: uses verbs and connectives for cause and effect clauses	0,1	
	6.2.3 Vocabulary:uses general marine engineering terms to describe marine engines	0,1	
		0,5	0,1
Part 1 Four stroke cycle Exercise 1	1.1.2 Grammar:uses Present simple Tense to describe features	0,1	0,1
		0,1	0,1
Part 1 Four stroke cycle Exercise 2	1.3.2 phonology: identifies the stressed syllable in words	0,1	
	8.2.4 vocabulary: identifies words that have similar meanings	0,2	0,3
		0,3	0,3
Part 1 Two stroke cycle Text	6.1.2 Grammar: uses the passive voice In Present Simple Tense	0,1	
	6.4.3 Communication skills: explains the operation principle of a 2 stroke cycle	0,2	0,3
	6.2.3 Vocabulary:uses general marine engineering terms to describe marine engines	0,1	
		0,4	0,3

Part 1 Two stroke cycle Exercise 1	Grammar: uses Present Simple to describe stages of a process	0,1	0,1
	6.4.3 Communication skills: reading explains operating principles of some marine engines	0,1	0,2
		0,2	0,3
Part 1 Two stroke cycle Exercise 2	grammar: uses compound sentences to compare two engine types	0,1	0,1
	6.4.3 communication skills: listening and writing explains operating principles of some marine engines	0,2	0,2
		0,3	0,3
Part 1 Four stroke diesel engine Text	6.4.3 Communication skills: explains the operating principles of marine engines	0,4	
	6.1.2 Grammar: uses Passive Voice in the Present Simple to describe machine construction	0,1	
	6.2.3 Vocabulary:uses general marine engineering terms to describe marine engines	0,1	
		0,6	
Part 1 Four stroke diesel engine Exercise 1	6.2.3 Vocabulary:uses general marine engineering terms to describe marine engines	0,2	0,3
		0,2	0,3

Part 1 Four-Stroke Diesel Engine Exercise 2 EXERCISE 1	6.4.3 communication skills: listening and writing explains operating principles of some marine engines	0,2	0,3
	Grammar; uses simple Present Tense to describe machinery construction	0,2	0,2
		0,4	0,5
Part 1 Four-Stroke Diesel Engine Exercise 3	6.2.3 Vocabulary:uses general marine engineering terms to describe marine engines Communication skills: listening, writing	0,4	0,4
		0,4	0,4
Part 1 Two-Stroke Diesel-Engine Text	6.4.3 Communication skills:explains the operating principles of marine engines	0,4	
	6.1.2 Grammar: uses Passive Voice in the Present Simple to describe machine construction	0,1	
	6.2.3 Vocabulary:uses general marine engineering terms to describe marine engines	0,2 0,1	
		0,7	
Part 1 Two-Stroke Diesel-Engine Exercise 1	4.2.5 Vocabulary: describes the construction of machine parts using appropriate verbs	0,1	0,2
	6.3.1 Phonology:pronounces past participles in connected speech	0,2	0,1
		0,3	0,3

Part 1 Two-Stroke Diesel-Engine Exercise 2	6.1.2 grammar:use the Passive Voice in the Present Simple		
	grammar:use the Passive Voice in the Present		
	uses prepositions to express cause and direction	0,2	0,3
	6.4.3 Communication skills: explains the operating principles of marine engines	0,1	0,1
		0,3	0,4

Part 1 Diesel Engine Types Text	6.2.3 Vocabulary:uses general marine engineering terms to describe marine engines	0,2	0,3
	Communication skills: reading		
	describes different types of marine engines explaining their basic characteristics	0,2	0,3
		0,4	0,6

Part 1 Diesel Engine Types Exercise 1	6.2.3 Vocabulary:uses general marine engineering terms to describe marine engines	0,2	0,4
	3.2.2 Vocabulary:uses compound nouns relating to marine engines		
	3.3.1 Phonology: presents word stress in compound words	0,1	0,2
		0,3	0,6

Part 1 Diesel Engine Types Exercise 2	6.1.2 grammar:use the Passive Voice in the Present Simple	0,2	0,3
	4.2.5 Vocabulary: describes the construction of machine parts using appropriate verbs	0,2	0,1
	6.3.1 Phonology:pronounces past participles	0,1	0,1
		0,5	0,6
Part 1 Diesel Engine Types Exercise 3	Grammar: uses word order for correct questions	0,5	0,5
		0,5	0,5
Part 1 Diesel Engine Parameters Text	Communication skills: reading explains main diesel engine parameters	0,2	0,2
	6.2.3 Vocabulary:uses general marine engineering terms to describe marine engines	0,1	0,2
		0,3	0,4
Part 1 Diesel Engine Parameters Exercise 1	Vocabulary: revises main units used for describing engine parameters	0,1	0,2
	3.2.3 uses compound numbers to identify parameter values	0,1	
	Total hours	0,2	0,2

Part 1 Diesel Engine Parameters Exercise 2	3.2.3 Vocabulary:revises main units and values of uses compound numbers together with units for describing one specific engine Communication skills: reading		
	6.2.3 Vocabulary:uses general marine engineering terms to describe marine engines	0,2	0,4
		0,2	0,4
Part 1 Diesel Engine Parameters Exercise 3	3.2.3 Vocabulary uses compound numbers to identify parameter values	0,1	0,1
		0,1	0,1
Part 1 Dual Fuel Systems Text	6.1.2 Grammar; uses the Passive Voice in present simple to describe a system operation	0,2	0,2
	6.5.3 Maritime Focus:describes an engineering system using diagrams to aid explanation	0,2	0,2
	3.2.2 Vocabulary:uses compound nouns as related to technical system and process	0,2	0,2
		0,6	0,6
Part 1 Dual Fuel Systems Exercise 1	6.2.3 Vocabulary:uses general marine engineering terms to describe marine engines operation	0,1	0,1
	Grammar: uses verbs in Simple Present to describe principles of operation	0,2	0,2
		0,3	0,3

Part 1 Dual Fuel Systems Exercise 2	3.2.2 Vocabulary:uses compound nouns to as related to technical system and process	0,2	0,2
	Communication skills: writing compounds with a hyphen		0,3
		0,2	0,5
Part 1 Jerk Pump injection text	6.1.2 Grammar; uses Passive Voice in Simple Present tense	0,2	
	6.2.3 Vocabulary: uses marine engineering terms to describe auxiliary machinery; injection pump		0,3
	6.4.3 Communication skills: explains the functioning of and the operating principle of a marine pump	0,4	0,4
		0,6	0,7
Part 1 Jerk Pump injection text Exercise 1	3.2.2 Vocabulary: uses compound nouns to describe machinery	0,2	0,2
	Grammar: uses Simple Present Tense for defining machinery parts		
	6.4.3 Communication skills: explains the functioning of and the operating principle of a marine pump	0,2	0,3
		0,4	0,7

Part 1 Jerk Pump injection text Exercise 1	Grammar: uses appropriate word order for questions	0,2	0,3
	Vocabulary: uses adverbs of manner in phrases describing machinery machinery functioning Communication skills: reading, listening		0,2
		0,2	0,5
Part 1 Jerk Pump injection text Exercise 2	6.5.3 Maritime focus: describes lubrication oil system using diagrams to aid explanation		0,3
	6.4.3 Communication skills: reading explains the functioning of a marine lubricating oil system	0,4	
			0,1
		0,4	0,4
Part 1 Operating Procedures Text	8.2.2 Vocabulary: demonstrates verbs commonly used in maintenance and troubleshooting procedures	0,2	0,2
	8.3.1 Communication skills: reading, listening Phonology; identifies the strong and weak syllables in verbs	0,3	0,5
		0,5	0,7
Part 1 Operating Procedures Exercise 1	Vocabulary; identifies opposites of verbs in operating procedures	0,2	0,2
	Communication skills; reading, listening		
		0,2	0,2

Part 1 Operating Procedures Exercise 2	8,5,1 Maritime focus:suggest remedies to machinery based on operating manuals	0,3	0,2
	8.2.2 Vocabulary: demonstrates verbs commonly used in maintenance and troubleshooting procedures	0,1	0,3
	Communication skills: reading extracts from operating manuals of machinery	0,2	0,3
		0,6	0,7
Part 1 Fuel Oil Supply System Text	6.4.3 Communication skills: reading explains the functioning and operating principles of a ship fuel oil supply system	0,4	
	6.2.3 Vocabulary: uses general marine engineering terms to describe a ship system		0,2
		0,4	0,2
Part 1 Fuel Oil Supply System Text Exercise 1	6.4.3 Communication skills: reading explains the functioning and operating principles of a ship fuel oil supply system	0,1	0,3
		0,1	0,3

Part 2 Engine Room Layout Engine Room Floor	6.2.3 Vocabulary: uses general marine engineering terms to describe the main components of marine engine room machinery	0,6	1
	6.4.3 Communication skills: reading explains the operating principles of marine power plants and ship auxiliary machinery	0,6	1
		1,2	2

Part 2 Engine Room Layout Platform One	6.2.3 Vocabulary: uses general marine engineering terms to describe the main components of marine engine room machinery	0,5	1
	6.4.3 Communication skills: reading explains the operating principles of marine power plants and ship auxiliary machinery	0,5	1
		1	2

Part 2 Engine Room Layout Platform Two	6.2.3 Vocabulary: uses general marine engineering terms to describe the main components of marine engine room machinery	0,5	1
	6.4.3 Communication skills: reading explains the operating principles of marine power plants and ship auxiliary machinery	0,5	1
		1	2

Part 3 Texts, Videos and Exercises: Interview with Peter Lund Ex 1, 2 & 3	Communication skills; listening Vocabulary; identifies, uses and writes a range of words and terms related to the training of marine engineers. Maritime Focus; analyses and situates training for marine engineers. analyses the role of the chief engineer.	0,5 0,5	0,3 0,3
Part 3 Texts, Videos and Exercises: Fuel bacteria results in grounding Ex 1 & 2	Communication skills; multiple choice based on reading comprehension Vocabulary; identifies and creates word combinations related to incidents involving engineering equipment. 3 Maritime Focus; describe incidents that occur on shore and on board 3.5 incidents at sea. 4.5 accident prevention; maintenance requirements for engineering equipment and machinery.	0,8 0,8	0,5 0,5
Part 3 Texts, Videos and Exercises: Engine room fire alongside oil berth	Communication skills; acknowledges statements as being true or false based on reading comprehension. 12.1 Grammar; Present Perfect Passive uses and writes the Present Perfect Passive to complete sentences related to fire involving engineering equipment and machinery. 3 Maritime Focus; describe incidents that occur on shore and on board. 3.5 incidents at sea. 4.5 accident prevention; maintenance requirements for engineering equipment and machinery.	0,8 0,8	0,5 0,5

Part 3 Texts, Videos and Exercises: Engine room tools Ex 1 & 2	Vocabulary; uses images to identify the names of tools used in the engine room.	0,3	0,2
		0,3	0,2

Part 3 Texts, Videos and Exercises: A maintenance procedure	Communication skills; multiple choice based on reading comprehension Maritime Focus; describes the maintenance procedure for the liquid fuel injection system.	0,4	0,3
	4.5 Maritime Focus; accident prevention; maintenance requirements for engineering equipment and machinery.		
		0,4	0,3

Sub Total	3,6	2,4
Sub Total	7,2	7,1
Sub Total	9,9	13
Unit Total Hours	20,7	22,5
