

	IMO Model Course 3.17 Core Section 2: Intermediate level English for all functions and levels		
MarEng Plus Chapter The Marine Environment	Knowledge, Understanding, Proficiency	Time (hours)	
		CD	Self study - Practice
Man-made Pollution: oil pollution: sources Exercise 1	Grammar: uses the correct form of the verb in the context of a sentence. Vocabulary: identifies verbs connected with oil pollution Maritime focus: analyses the sources of oil pollution.	0,3	0,2
		0,3	0,2
Man-made Pollution: oil pollution: accidents Exercise 2	12.1.1 Grammar: uses comparative and superlative adjectives to compare oil pollution issues. Vocabulary: distinguishes words and terms related to oil pollution from their antonyms. Maritime focus: analyses the effect of major oil spills.	0,3	0,2
		0,3	0,2
Man-made Pollution: oil pollution: cleanups Exercise 3	Grammar: uses different tenses correctly in the context of a sentence. 13.4.3 Communication skills: summarises the regulations introduced by MARPOL to control marine oil pollution. Maritime focus: analyses the measures introduced by MARPOL to reduce oil pollution from shipping.	0,3	0,2
		0,3	0,2
Man-made Pollution: toxic materials Exercise 4	5.2.1 Vocabulary: uses a range of verbs and connectives in sentences describing cause and effect/effects and causes. Maritime focus: analyses the sources of toxic materials and their effect on the marine environment.	0,3	0,2
		0,3	0,2

Man-made Pollution: toxic materials: cleanups Exercise 5	Vocabulary: identifies verbs connected with cleaning up toxic materials. Maritime focus: analyses and evaluates cleanups of toxic materials.	0,3	0,2
		0,3	0,2
Man-made Pollution: dangerous debris Exercise 6	13.2.3 Vocabulary: identifies words connected with marine pollution that have similar meanings (partial synonyms) Maritime focus: analyses the sources of dangerous debris.	0,3	0,2
		0,3	0,2
Man-made Pollution: dangerous debris and cleanups Exercise 7	13.2.5 Vocabulary: identifies statistical information correctly. Maritime focus: analyses and evaluates cleanups of dangerous debris.	0,3	0,2
		0,3	0,2
Hazardous & noxious substances Exercise 1	Vocabulary: identifies words and terms related to hazardous and noxious substances. Communication skills: reads and summarises the regulations introduced by OPRC-HNS Protocol to combat pollution from hazardous and noxious substances. Maritime focus: analyses and evaluates the regulations introduced by OPRC-HNS Protocol to combat pollution from hazardous and noxious substances.	0,45	0,2
		0,45	0,2

Hazardous & noxious substances: chemical spills Exercise 2	Vocabulary: identifies words and terms related to chemical spills. 0,3 0,2 13.4.2 Communication skills: identifies and explains the causes and consequences of marine pollution Maritime focus: analyses the risks associated with chemical spills.
	0,3 0,2
Anti-fouling Exercises 1, 2 & 3	13 Understands potential problems of marine pollution; describes pollution avoidance procedures. 1 1 Communication Skills: reads, understands and describes the purpose and operation of anti-fouling measures in relationship to the environment.
	1,0 1,0
Anti-fouling Exercise 1	Vocabulary: identifies words and terms related to anti-fouling.
Anti-fouling Exercise 2	Uses pictogram to identify the five dangers of anti-fouling. Maritime focus: summarises and analyses the five dangers of anti-fouling.
Anti-fouling Exercise 3	Vocabulary: uses multiple choice to identify words and terms related to anti-fouling and distinguish them from similar words in the correct context. Maritime focus: analyses the use of biocides.

Shipboard marine pollution emergency plans Exercise 1	Vocabulary: identifies words and terms related to shipboard marine pollution emergency plans.	0,45	0,3
	13.4.3 Communication skills: reads and summarises the regulations introduced by MARPOL to control marine pollution, in particular shipboard marine pollution emergency plans. Maritime focus: analyses and evaluates MARPOL regulations for shipboard marine pollution emergency plans.		
		0,45	0,3
Shipboard marine pollution emergency plans Exercise 2	Vocabulary: identifies words and terms related to shipboard marine pollution emergency plans.	0,3	0,3
	13.4.3 Communication skills: reads and summarises the regulations introduced by MARPOL to control marine pollution, in particular shipboard marine pollution emergency plans. Maritime focus: analyses and evaluates MARPOL regulations for shipboard marine pollution emergency plans.		
		0,3	0,3
