

Teacher's Manual for the MarEngPlus Web-based Maritime English Learning Tool

This manual explains how to use *MarEngPlus* lesson plans. It explains both the layout and the relevance each item has to *Model Course 3.17, Maritime English, 2009 Edition*. Each unit in the Elementary, Intermediate and Advanced sections of the course material has a lesson plan like the one below, along with an answer key. A Glossary is also available.

Lesson Plan

Since many maritime teachers use *Model Course 3.17, Maritime English, 2009 Edition* as a reference point, this has been chosen as the basis on which to compare the material developed by the *MarEngPlus* material creators with the existing elements as defined in the *IMO Model Course*.

Example

In the unit *Radio Communications* the task or exercise is identified and a direct reference is given to the relevant knowledge, understanding and proficiency as defined in *Model Course 3.17, Maritime English, 2009 Edition*. This is of value to the teacher since it gives guidance on how the objectives of a Maritime English course may be addressed by using the *MarEngPlus* program. A fuller explanation is given in the following pages. We trust you find the lesson plans easy to use and of value to your teaching.

IMO Model Course 3.17 Core Section 2: Intermediate level English for all functions and levels			
MarEngPlus Chapter	Knowledge, Understanding, Proficiency	Time (hours)	
Radio Communications		CD	Self study - Practice
Crossword Exercise 1	Grammar: uses the correct form of the verb in the context of a sentence.	0,3	0,2
	5.2 Vocabulary: identifies verbs connected with ship movements		
	5.5 Maritime focus: ship handling; navigation in heavy weather		
		0,3	0,2

IMO Model Course 3.17 Core Section 2: Intermediate level English for all functions and levels			
MarEngPlus Chapter	Knowledge, Understanding, Proficiency	Time (hours)	
Radio Communications		CD	Self study - Practice
Crossword Exercise 1	Grammar: uses the correct form of the verb in the context of a sentence.	0,3	0,2
	5.2 Vocabulary: identifies verbs connected with ship movements 5.5 Maritime focus: ship handling; navigation in heavy weather		
		0,3	0,2

In the Teacher's Manual there are tables like the one above which refer to several aspects of the *MarEngPlus* materials. These are clarified on the next page.

The Table information is linked to *Model Course 3.17, Maritime English, 2009 Edition* as follows:

1. Core Section 2 refers to Intermediate level English for all functions and levels. Core Section 1 refers to Elementary level English for all functions and levels.
2. This denotes the Chapter; in this case *Radio Communications* which is found in the advanced section of *MarEngPlus*.
3. This indicates two elements; firstly, the sub unit *Crossword* within the main unit of *Radio Communications* and secondly, the task at hand which can range from conversation or dialogue to, in this case, *Exercise*.
4. These numbers are reference numbers as identified in the *IMO Model course*. In this case the material in the unit *Crossword*, includes *Grammar: uses the correct form of the verb in the context of a sentence* which corresponds to Core section 2, sections 5.2 and 5.5 (knowledge, understanding and proficiency) in the *IMO Model Course*.
5. The estimated completion time is divided up into the time required to use the CD and the time required for self-study and practice and reflection. Many units have multiple sub units e.g. text, conversation, reading etc. At the end of each section, in this case *Crossword*, a total is given. At the end of each unit the total number of hours required to complete the entire unit is given.
Note: the times given are estimated.
